

Tilt 'N' Turn Windows

Tilt 'N' Turn windows are a superb alternative to standard windows in terms of the flexibility and variation they offer any home or office, yet still guarantee an elegant appearance to any building or room.

The Tilt 'N' Turn windows are side hung and can be turned to open fully into the room - this provides an ideal fire escape exit for any room. Alternatively the window can be tilted open at the top to provide all-day ventilation, and will provide security reassurance when the window remains open for an extended period of time.

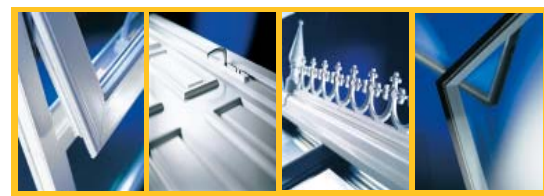

Our Exclusive and Essential range offer Tilt 'N' Turn in White, Mahogany or Oak, with the Extra range offering White, Rosewood or Oak. Colour co-ordinated gaskets are also available to enhance the appearance of your frames.

Key Features

- 60 & 70 mm profile
- 3 Frame Colours
- Internally Glazed
- "Easi-Gear" hinge
- Side hung
- Tilt mechanism
