

# Vertical Sliding Sash Windows

The vertical sliding sash window range combines the elegance of traditional sash windows with the benefits of modern materials. Manufactured from PVCu they are strong, will not rot, warp or require repainting; ensuring that they retain their colour and shape throughout the years with the minimum of maintenance. Suitable for both replacing existing timber sliders in period buildings, whilst still appealing to new builds seeking to capture a traditional feel.

**Vertical sliding sash windows give homeowners the opportunity to add value and character to their home.**

- KEY FEATURES
- 3 frame colour choices - cream, white & oak
- Brass, chrome & white window furniture
- Low maintenance PVCu frame
- Internally glazed
- Thermally efficient double glazing
- Easy cleaned sashes (tilt facility)

## Vertical Sliding Sash Windows

### Features & Benefits

- **Period look:** Astrical or Georgian Bar and Decorative horn options
- **Style:** Can be manufactured with an arched head giving your windows an extra touch of elegance
- **Colour Range:** White, Oak and new to the range, **Cream**
- **Choice:** Window furniture - White, Chrome and Brass
- **Character:** Deep bottom rail for a traditional appearance
- **Tilt Facility:** Offers easy ventilation which will reduce the build up of condensation
- **Convenience:** Both sashes tilt inwards to allow easy and safe cleaning of the outer pane from inside the home
- **Safety:** Option of a child restrictor is available for extra safety
- **Fire Escape:** Quick release mechanism on the restrictor to allow for a fire escape
- **Low Maintenance:** They will not rot, warp or require repainting
- **Internally glazed:** Making them one of our most secure frames ever
- **Security:** Customers may also choose an additional high security lock
- **Thermal Efficiency:** Camden Vertical Sliding Sashes are made with internal chambers which offers greater thermal efficiency than standard wooden sash windows, hence keeping homes warmer and reducing fuel bills
- **Double Glazed Units:** Vertical Sliding Sashes come fitted with double glazed units as standard for additional thermal efficiency
- **Gaskets:** The gaskets within the Vertical Sliding Sashes sits flush within the frame which means that only a fraction of the gasket is visible. The result is that the appearance of the window is not distorted by bulky thick lines
